

Industrial Services

Hazardous Waste Management

Specialist Recoveries

www.futureindustrial.com

Overview

Providing specialist environmental services to UK industry, utilities (water & energy), waste management and government organisations.

FIS are committed to the highest standards of technical expertise and customer care delivering sustainable environmental solutions. Our ambition for the company is to build long-term relationships with our customers so that we understand their processes and can

work together to generate real sustainable cost improvements. We will identify the best practicable environmental option available either through recycling, recovery, treatment, incineration or landfill that will both protect and enhance the natural environment.
