

# Waste Management Treatment & Transfer

## Environmental Services

# Waste Management Solutions

Collect, treat,  
recover and  
dispose

Strategically placed across the UK, our waste treatment plants and transfer stations are fully ISO 9001 and ISO 14001 accredited. Through our innovative, compliant and safe approach, we help you improve your environmental performance.

Our process includes **waste characterisation**, assessing options for the most appropriate **recovery, treatment or disposal** route.

## Our Services

- One of the **largest** permitted facilities in the UK with a capacity for 150,000 tonnes,
- 7 acre sites
- Physio-chemical treatment of waste materials incl. **acids, alkalis, oil waste, industrial effluent & interceptor waste**
- Reception of **hazardous** waste.
- Providing pre-acceptance, acceptance & in-house processing,
- Infrastructure is state-of-the-art, and the site benefits from a modern permit issued by the EA
- Treatment of **bulk** and **container material**
- Re-sorting, conditioning and repackaging
- Advanced laboratories giving full traceability and peace of mind
- Fully qualified chemists

### Industry we serve:-

Aerospace | Marine | Facilities Management | Engineering | Cosmetics | Oil | Automotive | Defence | Petrochemical | Electronic | Pharmaceutical

### Circular Economy

Future endorses the circular economy, seeking to:

- Maximise and extract value of the materials that circulate within the economy, recover and produce products and materials wherever possible at the end of service life.

### Wastes we accept - packaged & bulk

- Acidic waste- inorganic acids/organic acids
- Aqueous wastes
- Caustic waste
- Chromic acid
- Hypochlorite solutions
- Effluent sludges & leachates
- Interceptor waste
- APC residues
- Oil and water
- Degreasing waste
- Flammable sludges and solids
- Contaminated rags and absorbents

# Services we offer to industry
