Job description

Department/location:	Specialist Industrial Services (SIS) Division: Rugby
Hours of work:	45 hours per week plus overtime as required to meet the needs of the business including nights and weekends Hours of work and rest periods will be managed to comply with relevant working time legislation e.g. for LGV drivers: The Road Transport (Working Time) Regulations 2005 and average not more than 48 hours per week over the reference period. In accordance with the Regulations, working time does not include rest periods and periods of availability. You will also be required to spend nights away from your normal place of work on occasions when the tasks require.
Reports to:	Technical Op Supervisor, General Manager
Holiday:	20 days plus 8 bank holidays PA
Other benefits:	Company bonus scheme, pension scheme, death in service benefit

General:

The role of the Industrial Services Driver Operative is a rewarding and very varied role; the work ranges from unskilled to highly skilled: you could be involved in general site cleaning one day and a confined space tank clean with full breathing apparatus the next. You will operate in support of a variety of industries: you could be working at a cement works or an oil refinery one day and inside a sewage treatment plant or a Royal Navy vessel the next. All IS Driver Operatives are specially trained to carry out the various aspects of the role which are all conducted under strict health and safety rules following rigorous assessment of the potential risks involved. Work is usually carried out at the convenience of the customer, so there will be a requirement to travel and to work unsociable and often long hours to complete a job on schedule. There will be a requirement to pass security clearance to gain entry to certain work sites.

Main Duties:

- Carry out industrial services operations to a high standard in accordance with training and Future Industrial Services Ltd H&S procedures.
 - General site cleaning, repairs & maintenance
 - Scheduled plant cleaning, repairs & maintenance cleaning during shutdowns
 - Pollution control and spill response
 - High pressure water jetting
 - Cold cutting using specialist hydro-cutting equipment
 - Confined space operations, such as tank or sewer cleaning, which may involve the use of breathing apparatus
 - Rescue team duties
- Carry out driver/operator duties using various rigid LGV vehicles such as Tanker, Jetvac Unit, Super Sucker, Disab or artic LGV tanker (if qualified):
 - Driving vehicles to/from customer sites
 - Operating the machinery on site
 - Delivering waste produced to approved end disposal site.
- Ensure customers are treated with courtesy at all times.
- Ensure client is informed at all times regarding task and H&S issues.
- Comply with customer safety and security instructions at all times.
- To work under own initiative.

- Maintain good timekeeping.
- Be prepared for flexible working including out of hours work.
- **Work records, timesheets, and all relevant documentation to be completed Daily/weekly and returned to the local office by Monday each week.**
- Maintain cleanliness and ensure roadworthiness of any vehicle under your control.

General H&S Responsibilities:

- Comply with Health & Safety requirements: as per training, policies, procedures, risk assessments, method statements, safe systems of work etc.
- Actively seek to improve safety culture.
- Report any H&S issues/accidents/near misses to your line manager immediately.

Other General Responsibilities:

- Maintain the physical security of FIS equipment in your possession along with any goods transported in accordance with Company Security policies.
- Maintain the security and confidentiality of Company information and data in accordance with Company IT Security and Data Protection policies.
- Attend training as required to maintain personal qualification/competence.
- Comply with the Company Equal Opportunities Policy and promote equality.
- Any other duties as required by line management, commensurate with the post holder's level of training and competence.
