## THE SECTORS WE SERVICE

Renewable Energy

Infrastructure & Construction

Nuclear & Radioactive

Processing & Manufacturing

Oil & Gas

## ABOUT OUR HiPOD™

Augean's range of HiPods is at the forefront of our waste management services.

Our range of HiPods enables us to provide a safe and compliant means of storing hard to handle wastes in a secure container.

Through our investment and development in segregation processes, as well as supplying the HiPods, we provide and arrange the necessary processes to sort, segregate and treat the hard to handle wastes contained within the HiPods.

### Our service includes:

- + Supply, delivery, collection and replacement of HiPod containers from client sites
- + Sorting and segregating of waste at Augean's permitted sites
- + Treatment with the majority of the wastes routed for recovery
- + All relevant compliance paperwork
- + Routine scheduled collections or one-off jobs

# OUR RANGE OF HiPODS™

## HiPod™

Capacity	Acceptable Wastes*	General Information
1100 litres	Oil contaminated wastes: + Absorbents, rags and wipes + PPE + Empty oily packaging + Non ADR contaminated empty packaging	+ Highly manoeuvrable 4 wheeled container + Forklift pockets for loading + Lockable wheels + Lockable lid

# WHY CHOOSE HiPODS™?

WE SUPPLY, COLLECT, EXCHANGE,  
TRANSPORT, TREAT & TRANSFER

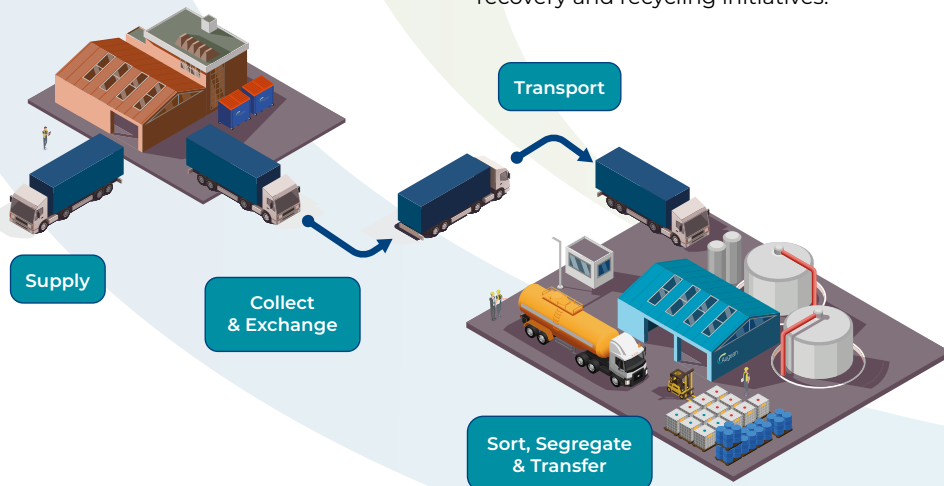

## WHY CHOOSE AUGEAN HiPODS?

- + Recovery code for wastes generated
- + Compliant and safe containment of waste whilst on site
- + Service and logistics teams located throughout the UK
- + One point of contact for service and commercial issues
- + Convenient and compliant collections throughout the UK

Our HiPod range is a popular service offering containerised waste solutions for a multitude of hazardous waste streams. Our HiPods can be stored both indoors and outdoors, or utilised within the waste production areas, removing double handling, and providing a safe and compliant storage of hazardous waste.

In addition, we specialise in the management of packaged wastes ranging in size from lab smalls to drums to IBCs. Our team will always balance the most economic option with environmental regulations, the waste hierarchy and your specific requirements.

Ensuring all relevant and applicable hazardous waste regulations are followed, our team can provide specialist technical advice to complex identification, packaging, recovery and recycling initiatives.

## THE AUGEAN INFRASTRUCTURE

We have infrastructure across the UK providing the processes to sort and segregate the hard to handle wastes contained within HiPods.

Augean has HiPod service centres and exchange hubs located around the UK.

We offer a national service enabling collections on an ad-hoc or scheduled basis.

## ADDITIONAL SERVICES

- + **Site survey:** Advice on the storage and segregation of hard to handle wastes
- + **Sampling and testing:** Supported by our UKAS accredited laboratory
- + **Listing:** Provided by our qualified chemists
- + **Packing:** On-site packing service by a qualified chemist
- + **Labelling and documentation**
- + **Waste collection, handling and processing**
