

SERVICES FOR THE **OIL & GAS SECTOR**

- + **Fully Compliant Waste Management Services**
from Rig to final disposal
- + **Specialist Industrial Services**
during planned turnarounds
and shutdowns at onshore
Tank Farms & Refineries

WHO WE ARE

AUGEAN IS LEADING THE WAY THROUGH COMPLIANCE DRIVEN SERVICES AND FACILITIES FOR THE UK'S OIL & GAS SECTOR

GROUP PROFILE

Augean specialises in managing hard-to-handle wastes.

We have a UK waste treatment and disposal infrastructure and we focus on delivering best environmental outcomes.

We service the Oil & Gas, Renewable Energy, Infrastructure & Construction, Nuclear & Radioactive, Processing & Manufacturing sectors.

We are a UK market leader in the processing and transfer of all types of hazardous/non-hazardous waste.

Our specialised operations manage the processing of all offshore wastes including drill cuttings/sludges, slops, dry bulk powders and contaminated fluids.

We also accept, process and repackage NORM waste for disposal, and offer Specialist Industrial Services deploying highly skilled operatives to on- & offshore locations within the UK, providing marine tank cleaning and decontamination services.

OUR COMMITMENT TO HEALTH, SAFETY & COMPLIANCE

COMPLIANCE

We ensure that our waste solutions are sustainable by monitoring forthcoming changes in regulation and legislation so that compliance objectives are understood, communicated to our operational teams and customers, and new protocols are implemented as necessary ahead of regulatory deadlines.

HEALTH & SAFETY

Safety is consistently at the forefront of how we operate our business. We operate under a fully integrated Management System, which is accredited to ISO 9001, ISO 14001 & ISO 45001 standards.

WASTE MANAGEMENT

All wastes are managed with due regard to the waste hierarchy. We specialise in the development of innovative solutions for the UK's more hard to handle wastes, backed-up by industrial services and decommissioning capability for a complete end-to-end service.

EXPERIENCED STAFF

Our knowledge and experience set us apart from our competitors. We pride ourselves on having the most experienced and capable team who service our customers whilst drawing from decades of experience. Together, with our wide-ranging service offering, we can be confident that we will deliver the best quality of services.

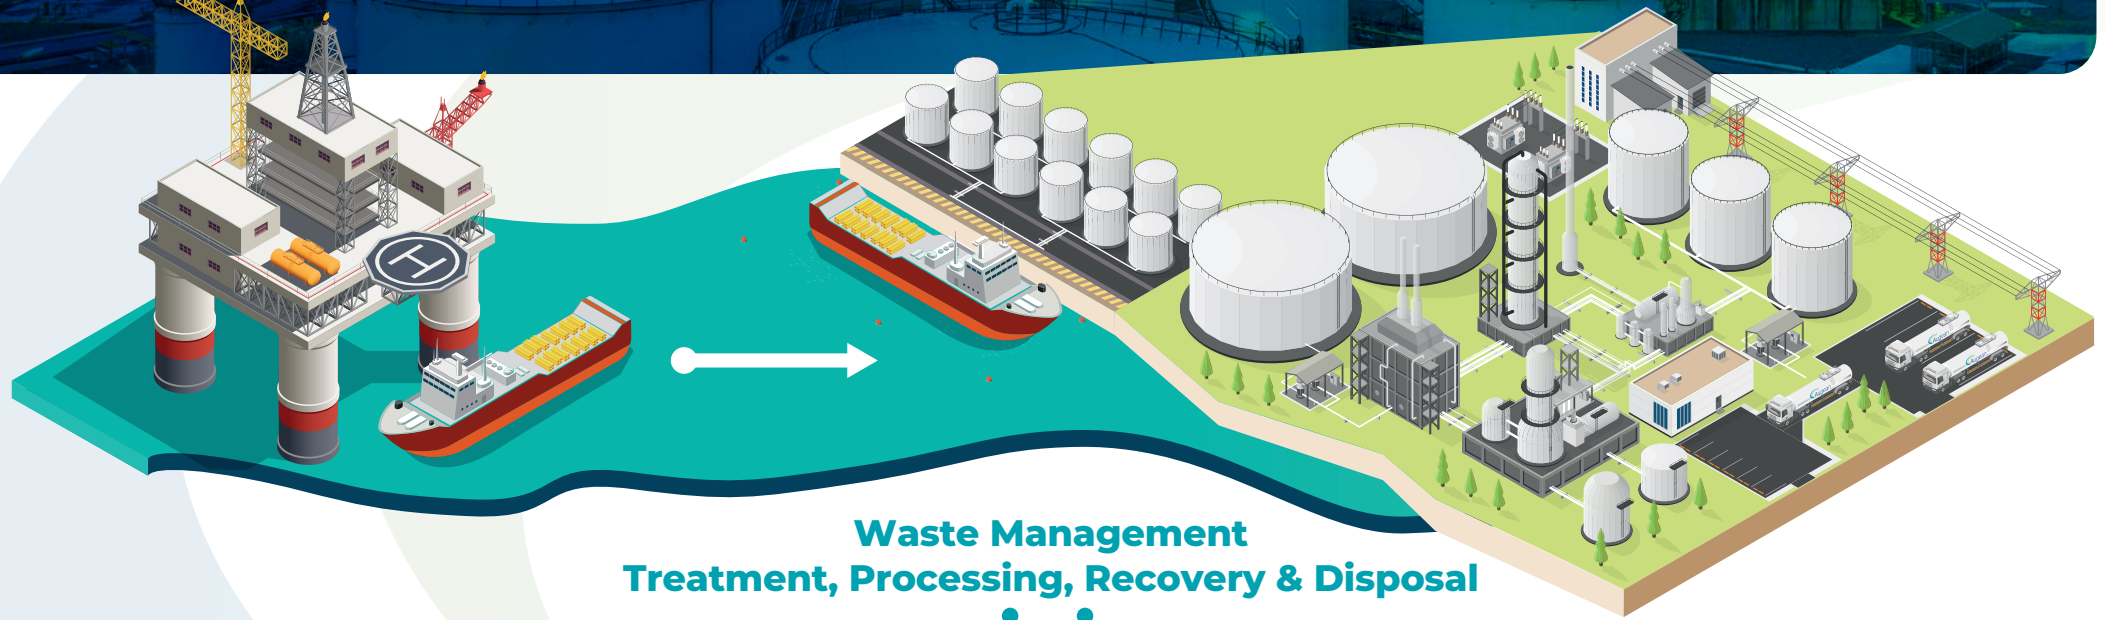

CARBON FOOTPRINT AND ENVIRONMENTAL IMPACT

Our range of eco-friendly solutions will aid in reducing the carbon footprint and environmental impact for ourselves and our customers. Our certification to ISO 14001 demonstrates our commitment for achieving legal and regulatory compliance to regulators and government. Focussing on best environmental outcomes.

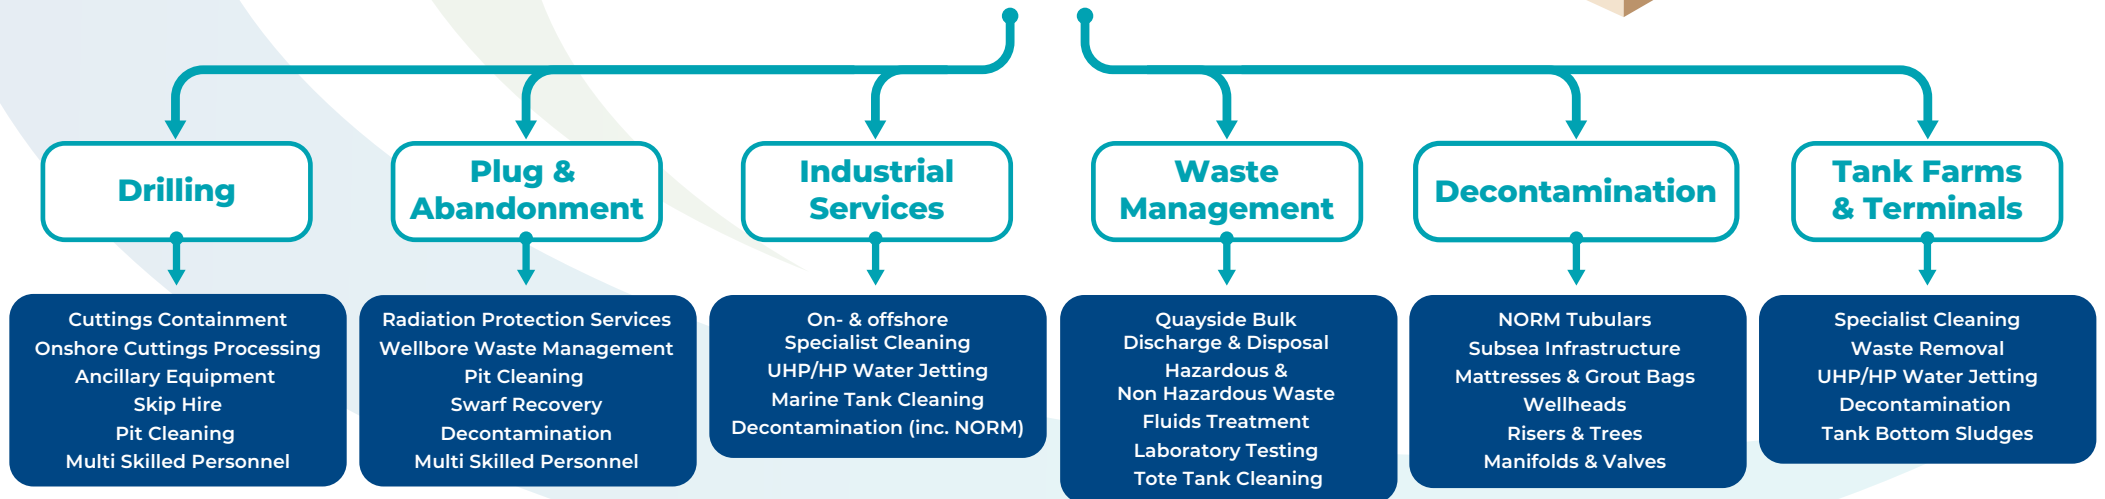

OUR OIL & GAS SERVICES

WE ARE THE **LEADING UK PROVIDER** TO OFFER WASTE MANAGEMENT AND SPECIALIST INDUSTRIAL SERVICES TO THE **OIL & GAS SECTOR**

Waste Management Treatment, Processing, Recovery & Disposal

OUR SITES

Eco Centre, Peterhead

This state-of-the-art facility specialises in re-use and recycling of drilling waste streams. Specifically, it delivers highly optimised waste treatment processes for offshore drill cuttings and slops.

OUR TREATMENT PROCESSES:

- + Processing of drill cuttings / sludges via Thermo-Mechanical Cuttings Cleaner (TCC)
- + Slops separation
- + Chemical treatment of contaminated water
- + Fabrication / welding workshop
- + On-site laboratory
- + Handling and storage of mud / cutting skips

THE WASTES WE CAN TREAT:

- + Oil based drill cuttings
- + Oily Slops
- + Oily waters
- + Oily solids / sludges (non-crude)

Blackdog, Aberdeen

Ideally located for servicing the Aberdeen and Peterhead harbour areas, our site allows easy access to waste recovery and disposal routes south of Aberdeen.

This site provides buffer storage for bulk liquid wastes received from our marine tank cleaning operations, and operates as a treatment and transfer centre.

OUR TREATMENT PROCESSES:

- + Slops separation
- + Bulk powder handling
- + Specialist industrial cleaning
- + Industrial services (marine cleaning and terminals)
- + Logistics base
- + Vacuum tanker fleet

THE WASTES WE CAN TREAT:

- + Bulk slops (OBM and WBM)
- + Bulk powders

Pocra Quay, Aberdeen

Our environmental award-winning site is a reception and treatment facility for wet and dry bulk wastes utilising the most up to date techniques for the treatment of drilling waste liquids.

The plant can receive deliveries of waste direct from the quayside in Aberdeen or via road.

OUR TREATMENT PROCESSES:

- + Quayside reception of bulk powders
- + Vessel direct discharge for offshore slops
- + Slops separation

THE WASTES WE CAN TREAT:

- + Bulk powders
- + Bulk slops (OBM and WBM)
- + Bulk liquid waste (washings, brine etc.)
- + NORM contaminated fluids

Greenbank, Aberdeen

A fully bunded operational yard area where both hazardous and non-hazardous wastes are received and processed prior to onward transportation to one of our internal treatment sites or through Augean's network of third-party treatment / disposal points.

OUR TREATMENT PROCESSES:

- + Processing and transfer of hard to handle wastes
- + Accept, store and repack NORM waste
- + Liquid treatment via DAF plant including NORM
- + On-site metal drum crushing
- + Tote tank handling
- + On-site laboratory

THE WASTES WE CAN TREAT:

- + Hard to handle wastes
- + Contaminated water
- + NORM contaminated water
- + NORM sand / scale / sludge
- + Flammable material
- + High / low calorific value waste

Dundee

Fully permitted this site can accept, manage, and store all decommissioning wastes such as NORM contaminated tubulars and equipment from plug and abandonment, as well as sections of dismantled topsides and subsea structures.

OUR TREATMENT PROCESSES:

- + Accept, store and repack NORM waste
- + NORM decontamination
- + Processing and transfer of hazardous / non-hazardous waste
- + Waste and industrial service support for berthed rigs

THE WASTES WE CAN TREAT:

- + Contaminated equipment
- + NORM sand / scale / sludge
- + Hard to handle wastes

Great Yarmouth

A fully bunded operational yard area where both hazardous and non-hazardous wastes are received and processed prior to onward transportation to one of our internal treatment sites or through Augean's network of third-party disposal points.

OUR TREATMENT PROCESSES:

- + Industrial services (marine cleaning and terminals)
- + Processing and transfer of hard to handle wastes
- + Slops separation
- + Bulk liquid handling
- + Vacuum tanker fleet

THE WASTES WE CAN TREAT:

- + Hazardous / non-hazardous waste
- + Bulk slops (OBM and WBM)
- + Bulk liquid waste (washings, brine etc.)
