WHO WE ARE

AUGEAN IS LEADING THE WAY BY DEPLOYING TEAMS OF HIGHLY SKILLED **SPECIALIST INDUSTRIAL SERVICES** OPERATIVES TO **ALL AREAS OF THE UK**

GROUP PROFILE

The Augean Group specialises in managing hard to handle wastes. We have UK waste treatment and disposal infrastructure and we focus on delivering best environmental outcomes.

Acquired by Augean in 2023, Future Industrial Services is a UK market leader in providing specialist industrial cleaning, decommissioning and decontamination.

The Augean Group is vertically integrated as we have waste treatment and disposal infrastructure and Environmental Permits to treat the wastes recovered from the Specialist Industrial Services process.

As a Group we service the Renewable Energy, Infrastructure and Construction, Nuclear and Radioactive, Processing and Manufacturing, and Oil and Gas Sectors.

OUR VISION

- + DEFINING THE FUTURE OF **MANAGING HARD TO HANDLE WASTES**, DRIVEN BY AN UNRIVALLED **PASSION AND EXPERTISE** IN OUR PEOPLE
- + CONTINUING TO DELIVER THE **HIGHEST LEVEL OF SERVICE** TO OUR CUSTOMERS WHILST RESPECTING THE BEST STANDARDS OF **HEALTH, SAFETY AND COMPLIANCE**
- + THROUGH KEEN RE-INVESTMENT, **INNOVATION AND SUSTAINABLE VALUES**, WE WILL CONTINUE TO BE THE BEST IN THE SECTOR
- + EARNING **TRUST** AND CREATING **POSITIVE LEGACY** FOR ALL OUR STAKEHOLDERS IS AT OUR HEART

OUR COMMITMENT

COMPLIANCE

We ensure that our waste solutions are sustainable by monitoring forthcoming changes in regulation and legislation so that compliance objectives are understood, communicated to our operational teams and customers, and new protocols are implemented as necessary ahead of regulatory deadlines.

HEALTH & SAFETY

Safety is consistently at the forefront of how we operate our business. We operate under a fully Integrated Management System, which is accredited to ISO 9001, ISO 14001 & ISO 45001 standards.

WASTE MANAGEMENT

All wastes are managed with due regard to the waste hierarchy. We specialise in the development of innovative solutions for the UK's more hard to handle wastes, backed-up by specialist industrial services and decommissioning capability for a complete end-to-end service.

EXPERIENCED STAFF

Our knowledge and experience set us apart from our competitors. We pride ourselves on having the most experienced and capable teams who service our customers whilst drawing from decades of experience. Together, with our wide-ranging service offering, we can be confident that we will deliver the best quality of service.

CARBON FOOTPRINT AND ENVIRONMENTAL IMPACT

Our range of eco-friendly solutions contribute to reducing the carbon footprint and environmental impact for ourselves and our customers. Our certification to ISO 14001 demonstrates our commitment for achieving legal and regulatory compliance to regulators and government. We focus on delivering best environmental outcomes.

OUR SPECIALIST INDUSTRIAL SERVICES INFRASTRUCTURE

THE QUALITY OF OUR **INFRASTRUCTURE**, AND THE WIDE RANGE OF SPECIALIST INDUSTRIAL SERVICES WE PROVIDE **ACROSS THE UK**, ARE **VALUED BY OUR CUSTOMERS**

OUR APPROACH

We work in partnership with our customers to provide **safe, compliant, cost-effective and innovative solutions**.

We continuously execute, to a high level, using our **well established processes, expertise and excellent contract management** to communicate and carry out all works effectively.

This, combined with our **top-class safety and compliance record**, in what is an aggressive working environment, puts us at the forefront of the industry.

We are **experts within the sector** and we thrive on innovation. If something isn't working well, we will suggest a solution that does. We invest in tomorrow, stay ahead of what's next and have the scale to **support the industry**.

THE AUGEAN GROUP HAS **7 SPECIALIST INDUSTRIAL SERVICES OPERATIONAL SITES** ACROSS THE UK

WHY CHOOSE US?

- + Nationwide coverage
- + 7 Specialist Industrial Services operational sites across the UK
- + We have the largest UK fleet of high air flow vacuum trucks
- + Committed to best-in-class Health, Safety and Compliance
- + To process the wastes collected from the Specialist Industrial Services, we have the necessary infrastructure for waste treatment and disposal, as well as environmental permits
- + We ensure service reliability and flexibility

BULK STORAGE AND ENERGY INFRASTRUCTURE KEY FACTS:

309 terminals and distribution hubs in the UK

11 million m³ of storage capacity in UK and ROI

>726,000 m³ are chemicals

>10 million m³ are oil and fuels

>3,500 storage tanks storing hazardous and non-hazardous liquids

PROVIDING A WIDE RANGE OF SERVICES

- + Tank cleaning
- + Jetting
- + UHP interceptor and drain cleaning
- + Plant decommissioning and decontamination
- + EfW & biomass plant shutdown cleans (including boilers, vessels, walkways, grates, tubes and ducting)
- + Cold cutting (hydro abrasive cutting)
- + Non-man entry
- + Confined space and breathing apparatus rescue
- + Waste treatment and disposal infrastructure deals with wastes arising from Specialist Industrial Services

WE ARE INDUSTRY LEADERS IN SHUTDOWN SERVICES, OUTAGES AND PLANNED MAINTENANCE

SPECIALIST INDUSTRIAL CLEANING SERVICES

Our Specialist Industrial Services team offers a vast range of expertise from tank to bund cleaning and decommissioning, as well as the cleaning of:

- + Anaerobic digestors
- + Storage tanks
- + Blue water facilities
- + Chemical / acid / glycol tanks
- + Grease tanks
- + Bitumen tanks
- + Sludge tanks and DAF plants
- + Fuel and effluent tanks

NON-MAN ENTRY

We manage a portfolio of non-entry systems to execute a full range of tank cleaning tasks (black oil, gasoline / volatiles, crude oil).

- + Zone 0 tank cleaning
- + Gerotto Zone 0 remote operated vehicle (ROV) used with powerful ADR liquid ring vacuum tanker
- + The Gerotto unit has a 100 metre umbilical cord connected to Zone 0 hydraulic controls, CCTV and lighting so it can be operated from outside the zoned area
- + Intrinsically safe remote control tank cleaning cannon system
- + Fully remote heavy oil Zone 1 hydraulic de-sludging unit

OUR STRENGTHS

- + Uniquely placed to offer a nationwide service
- + Providing specialist industrial cleaning and waste management
- + In-house support services
- + Air pollution control logistics with treatment and disposal infrastructure
- + Innovation

CUSTOMER BENEFITS

- + Safety and compliance is a priority
- + Cost efficiency
- + Highly skilled teams in confined space and breathing apparatus rescue
- + Strategically placed support network
- + Operational excellence - working in partnership with our customers

CONFINED SPACE

Many industrial cleaning jobs require a fully trained confined space entry team to carry out the schedule of works in an efficient and safe manner.

Our trained operatives are equipped with up-to-date equipment, gas testers, breathing apparatus (BA) sets with the full back up of equipment (HPWJ, UHP, high air flow vacuum trucks, tankers and filterpresses).

NATIONWIDE COVERAGE OFFERING A LOCAL SERVICE

HIGH PRESSURE WATER JETTING

We offer a comprehensive care and repair service for all cleaning and decontamination including plant, equipment, buildings, drains, sewers and culverts:

- + Sewer / drain cleaning and unblocking - 100mm to 1200mm diameter
- + Culvert cleaning
- + Gully and channel cleaning
- + Interceptor cleaning
- + CCTV surveys
- + Sewage pump station cleaning
- + Sewage treatment works including routine and emergency cleaning
- + Deep suction - to depths of 45m and emergency tankering / over pumping

FLEET SUPPORT

We operate a range of specialist equipment including a large fleet of articulated vacuum tankers able to carry a wide range of products, including:

- + High air flow vacuum trucks
- + Supersuckers
- + Megavacs
- + High pressure jetting units
- + Mobile dewatering units
- + Isolation equipment
- + Mobile pollution abatement plant, including mobile pollution prevention chambers
- + CCTV drainage surveys

COLD CUTTING

We provide industry leading hydro abrasive cutting equipment with highly skilled operators. Our technology is used across the Petro-Chemical, Chemical, Gas and Utilities sectors, as well as Defence applications.

Our systems are commonly used to:

- + Cut storage tank doorways, floors and roof sections
- + Decommission and removal of sections of pipework
- + Cut openings into refractory lined units
- + Cut columns and vessels

Hydro abrasive cutting is:

- + Spark and heat free
- + Utilised in the cutting of steel and specialist alloys
- + Zone 2 rated and self-supported
- + Safe to use in explosive and flammable atmospheres

ESG

AUGEAN IS COMMITTED TO MEETING ITS ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) OBLIGATIONS

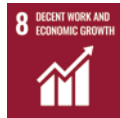

Since the company's inception, Augean has followed best practices in environmental stewardship, social responsibility, and corporate governance as well as the continuous development of ESG standards, which is an integral part of the company's growth.

Our company values, policies and management systems reflect this. Since 2005, we have produced an annual Corporate Sustainability Report (CSR), in which our ethos and operating practices are explained and our performance against selected criteria is disclosed.

ENVIRONMENTAL criteria consider how a company performs as a steward of nature, and Augean recognises the important role it plays in the environment and communities within which it operates.

SOCIAL criteria examine how we manage relationships with employees, suppliers, customers and the communities where we operate. The health, safety and wellbeing of our employees, compliance with regulations and acting as a good neighbour by minimising the impact of our operations on the wider community, are continuing business priorities.

GOVERNANCE deals with a company's pay, audits, internal controls and shareholder rights. Maintaining the highest standards of governance is integral to the effective delivery of our strategy. It ensures that the Board take decisions that create sustainable long-term value for the mutual benefit of our customers, the communities we serve, our employees and shareholders.

OUR TESTIMONIALS

I would like to take some time to say thank you to the team involved with the cleaning of our lime mixing chamber. A **very well-versed team** who were respectful to our on-site demands and wishes and carried out the job **swiftly with no hiccups**. Thank you for your support and **no doubt we will be using your services again**.

- DWS Production Site Manager, Utilities Sector

Just a quick note to say thanks to you and the team for the response today. Great to have the **support** when needed in times like that.

Please pass on my thanks to Lee especially - his **response** getting stuck in and working continuously was **above and beyond**.

- Duty Manager, Utilities

Great work by your team again this week. Please pass on my thanks to Jamie and Aaron and the team for their patience and hard work. The whole week went swimmingly due to their strong supervision and hard work. Hugely appreciated.

- Site Manager, EfW

The guys I have met know what they are talking about, and they are **experts in their field**.

- Site Facilities Manager

Just a quick mail to say thanks to the team who have been working on site in Rotherham. They have been **neat and tidy**, did what was asked and left the job **safe** at the end of each shift. I would be very **happy to work with this team again**.

- Senior Site Manager, Technical Services Projects
